

Vendor Management that saves time and money

We improve Service and Vendor Performance
to support your growth

[AVENTARIO.COM](https://www.aventario.com)

Your challenges

High demand for important projects by (internal) customers can be overwhelming.

But successful project delivery requires skilled people. Very often our clients have to manage some / all of the following challenges:

Too many (internal) customer demands / projects

Detailed service scope difficult to define

People with appropriate skills are not available

Customer expectations often not fulfilled

Our goal

We enable your growth by involving preferred suppliers

Vendor Management Services

We support you in the search and selection of suitable preferred suppliers, elaborate individual framework agreements for you and your requirements and accompany you after the conclusion to handle ongoing vendor management operations.

ASSESSMENT VENDOR MANAGEMENT

Comprehensive reviews

We conduct comprehensive reviews of your Vendor management processes, contracts and business relationships and support you in making changes and start improvements.

OPERATING VENDOR MANAGEMENT

Enable Supplier Management

We enable efficient performance control and supplier management by train you in the use of contract options and supporting you in ongoing assessments, benchmarks and evaluations as well as in scaling up the services executed by your preferred suppliers.

Reduction of vendors

We reduce the number of your individual service providers and help you to establish framework agreements with the preferred suppliers to streamline overhead, reduce effort and speed up hand-over activities.

SETUP PREFERRED SUPPLIERS / FRAME CONTRACTS

Tool to automate the process

In the fast-moving age of change and digitization, we help to manage the flow of information and data by providing a tool that covers precisely those vendor processes to digitize and automate them as much as possible
